## Set Up the Salvage

Those chipped, cracked or sun-bleached architectural pieces (like shutters, picket fencing, or old windows and doors) become works of art when displayed prominently in a room. Their timeworn appearance tricks you into thinking they were washed up on the beach (even if your place is in the city).

# 7

## Layer on Comfort

For the bedroom, choose floral or striped linens. Add puffy pillows for reclining or propping up tired feet. Keep a cozy blanket or quilt folded at the end of the bed, prepped for an afternoon nap. Furnishings should be simple; the purpose of this space is to enjoy your hard-earned R&R. ■
