B&B STYLE To make her guest room feel more like a bed and breakfast, Kimberly fashioned this reading nook from a garden bench and a mosaic table.

swagging rights

Kimberly loves swags, for their swooping softness and "the romance of them," she says. She made sure that swags were a theme she continued throughout her house, including the bedroom, below, the living room, right, and the sunroom, far right.

FRAMED! This solid wood bedframe, a lucky \$20 find, was an instant winner: "I didn't do one thing to the bed, except it has no side rails so it is held up by the chest at the end." ■
